

# Tunnelvision

while the world awaits

"While The World Awaits", Tunnelvision's sensational debut album, is a mixture of present-day's roaring guitar riffs, yesterdays retro keyboards, massive drums with thundering bass and on top of it all, Hi-Fi quality vocals. This CD is full of powerful Prog/Fusionmetal including impressive vocal and instrumental melodies, catchy choruses and - not to forget - perplexing symphonic details!

With the 11 tracks of "While The World Awaits", the band Tunnelvision wants to express three

different moods: light prosaic optimism, sweet melancholy and anger. Summing up, "While The World Awaits" is an album where talent and creativity meet excellence of production. The album has been mixed by Mikko Karmila (Stratovarius, HIM etc.).

Tunnelvision has been founded in 1995 in Helsinki, Finland by drummer Mirka Rantanen, keyboard player Kari Tornack and vocalist Marko Waara. They decided to form a band to play music between Heavy Metal and Progressive Rock. Since 1999, after trying numerous guitarists and bass players, the final line-up includes also Juhani Malmberg on guitar and Lauri Porra on bass guitar.

"While The World Awaits" - a groundshaking, indispensable debut album!
